
PRESS RELEASE

Hydor announces new team member

Oslo, 24 June 2011: Hydor is very pleased to announce that Mr. Andrew Barker joins our team as Consultant. His main role in Hydor besides acting as an advisor will be to focus on strengthening our position as the preferred fixed premium P&I provider by closely liaising with the London market. Andrew will report to Hydor in Oslo and will work together with Farah Tideman in Brit's liability team to promote Hydor in the London market.

Andrew has more than 20 years' experience from the West of England before starting up the fixed P&I facilities at Terra Nova, Osprey and Navigators.

We are confident that Andrew's vast experience and background from the industry will be a great asset to grow our portfolio, further develop Hydor and ensure that we provide the best possible service to the London market.

Contact details Andrew Barker:
